AUGUST 2001

3D FOR FREE

3D modeling is growing strong on the Macintosh, and **Amapi 3D 4.15** is a great way to join the game.

FREE PRO PLUG-INS

Eye Candy 4000's the new plug-in pack on the block, but its powerful predecessor, **Eye Candy 3.1**, is yours free!

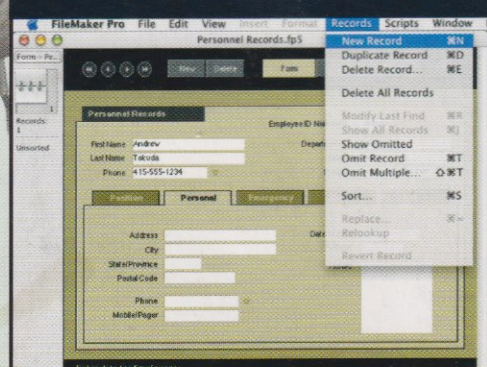

DIZZYING!

HIGHLIGHT OF THE MONTH

It's like Tempest in triple time! **Vortex NG 1.03** will spin you round.

A DATABASE X?

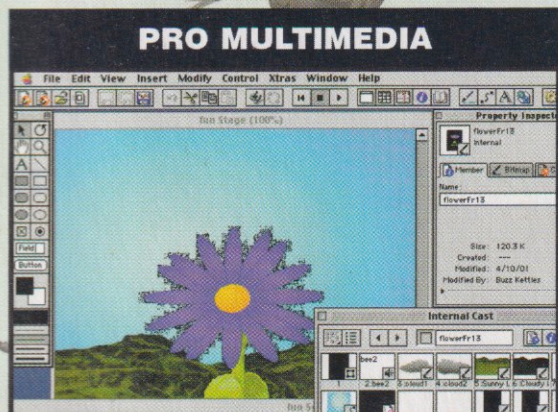

Not just any database—the database. **FileMaker Pro 5.5** is now Mac OS X native, and we have a demo to prove it.

ALSO ON THE DISC

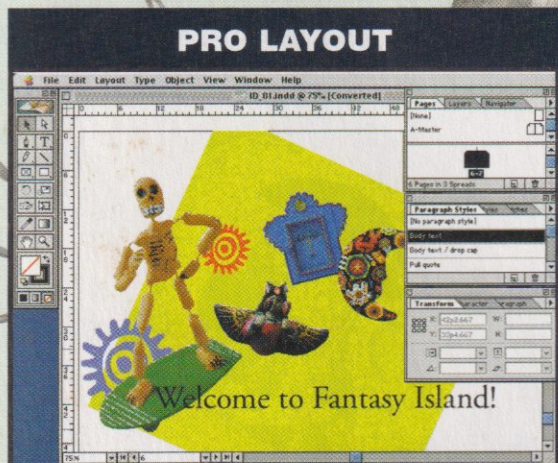

SessionLog 1.3 shareware, SFX Machine 1.52 shareware, EasyShare 1.2 shareware, MaxBulk Mailer 1.7.1 shareware, PixNews MacFree 1.0.0 freeware, David's

CD on back

BIG-TIME DEMOS!

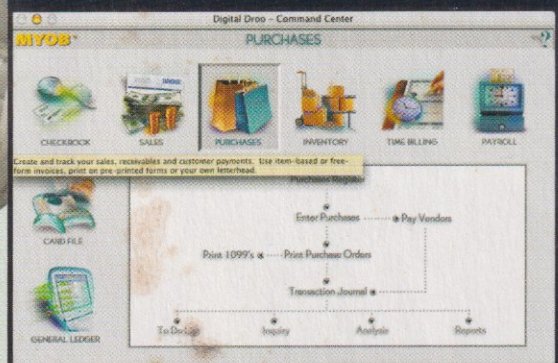

Director 8.5 is the ultimate multimedia-authoring tool on any platform, and the new version will knock your beanie off.

Adobe keeps crankin' 'em out. **InDesign 1.5** is a new professional layout and design program that you can try for 60 days.

MIND YOUR OWN BUSINESS...

...and do it with **MYOB Account Edge**, the only fully Mac-supported accounting app on the market, now in native Mac OS X!
